**Abstract (maximum 300 words)**

This presentation will outline the process, initial findings and actions from the current Deep Dive project which
---

is exploring home BME undergraduate students' attainment and how the University can support them more effectively to get more 2:1 and 1<sup>st</sup> class degrees.

Despite numbers of BME students being relatively small at LBU (12%), there is a clear attainment gap.

BME students across the sector are more likely than their white peers to get a Third or 2:2. (Broecke and Nicholls, 2007; Richardson, 2008). At LBU, 49.8% BME students get good degrees compared to 64.5% of white students. Nationally 73% of white students get 1<sup>st</sup> and 2:1s but 58.5% of BME students nationally get 1sts and 2:1s. Our University *is below* average for attainment for white *and* BME students both in our own University and compared to the sector and the gap in white and BME attainment remains significant.

A broadly interpretive approach was adopted for this project. Detailed analysis of quantitative data relating to 5 large UG courses, analysis of course documentation and of qualitative data from staff and student focus groups was undertaken.

Six actions (listed below) were identified from the emergent findings and will be discussed. These are part of a more inclusive approach to practice catalysed by our Race Equality Charter Mark Action Plan and a parallel Deep Dive project about supporting disabled students.

- a) the identification of two Inclusivity Champions per School and Service
- b) establishing a pan-University group to address inclusive assessment practice;
- c) establishing a work group exploring BME student uptake of placement opportunities;
- d) "unconscious bias" training for all staff
- e) establishing a project to review "white curricula" which would mirror the existing NUS campaign "Why is my curriculum white?"
- f) working with the SU to encourage more BME students to stand as student course representatives.

Word count (excluding references) 300

**SUBMISSION CHECKLIST**

- I have ticked to indicate my preferred presentation type (e.g. poster, oral communication).
- I have provided the abstract title; list of authors and affiliations (with presenting author underlined); and abstract text.
- All authors and co-authors have been notified and agree to the abstract submission.
- The text of my abstract complies with the formatting guidelines and does not exceed the maximum words.
- My completed abstract is saved as a Word document (.doc or .docx ) and the filename is my surname and short/abbreviated abstract title.
- I have addressed the submission email to [conferenceinfo@kent.ac.uk](mailto:conferenceinfo@kent.ac.uk) and inserted 'Closing the Gap Abstract Submission' in the e-mail subject line.
