Document Version:

Conference or Workshop Item (Presentation)

The aim of the Leeds Beckett Repository is to provide open access to our research, as required by funder policies and permitted by publishers and copyright law.

The Leeds Beckett repository holds a wide range of publications, each of which has been checked for copyright and the relevant embargo period has been applied by the Research Services team.

We operate on a standard take-down policy. If you are the author or publisher of an output and you would like it removed from the repository, please [contact us](#) and we will investigate on a case-by-case basis.

Each thesis in the repository has been cleared where necessary by the author for third party copyright. If you would like a thesis to be removed from the repository or believe there is an issue with copyright, please contact us on openaccess@leedsbeckett.ac.uk and we will investigate on a case-by-case basis.

Governance of sport management: design of viable initiatives based on grassroots governance, co-design and co-management.

Things to keep in mind during this presentation 2:

Omote

Ura

AI 合 (Harmony (Balance))
 KI 氣 (Energy (Life))
 DO 道 (Way (Path))

The broad context: MEDELLIN

History - sephardi

Culture - Patriarchal - VERY hierarchical society - Conservative

Plus.. what you know (or have been told) about Medellin

... but:

2003 - Sergio Fajardo

Agenda of sustainability (sustainability) - Framework plan

Surf the wave:

- Sustainable city
- Smart city (0.1 & 0.2)
- The internet of everything
- Big data

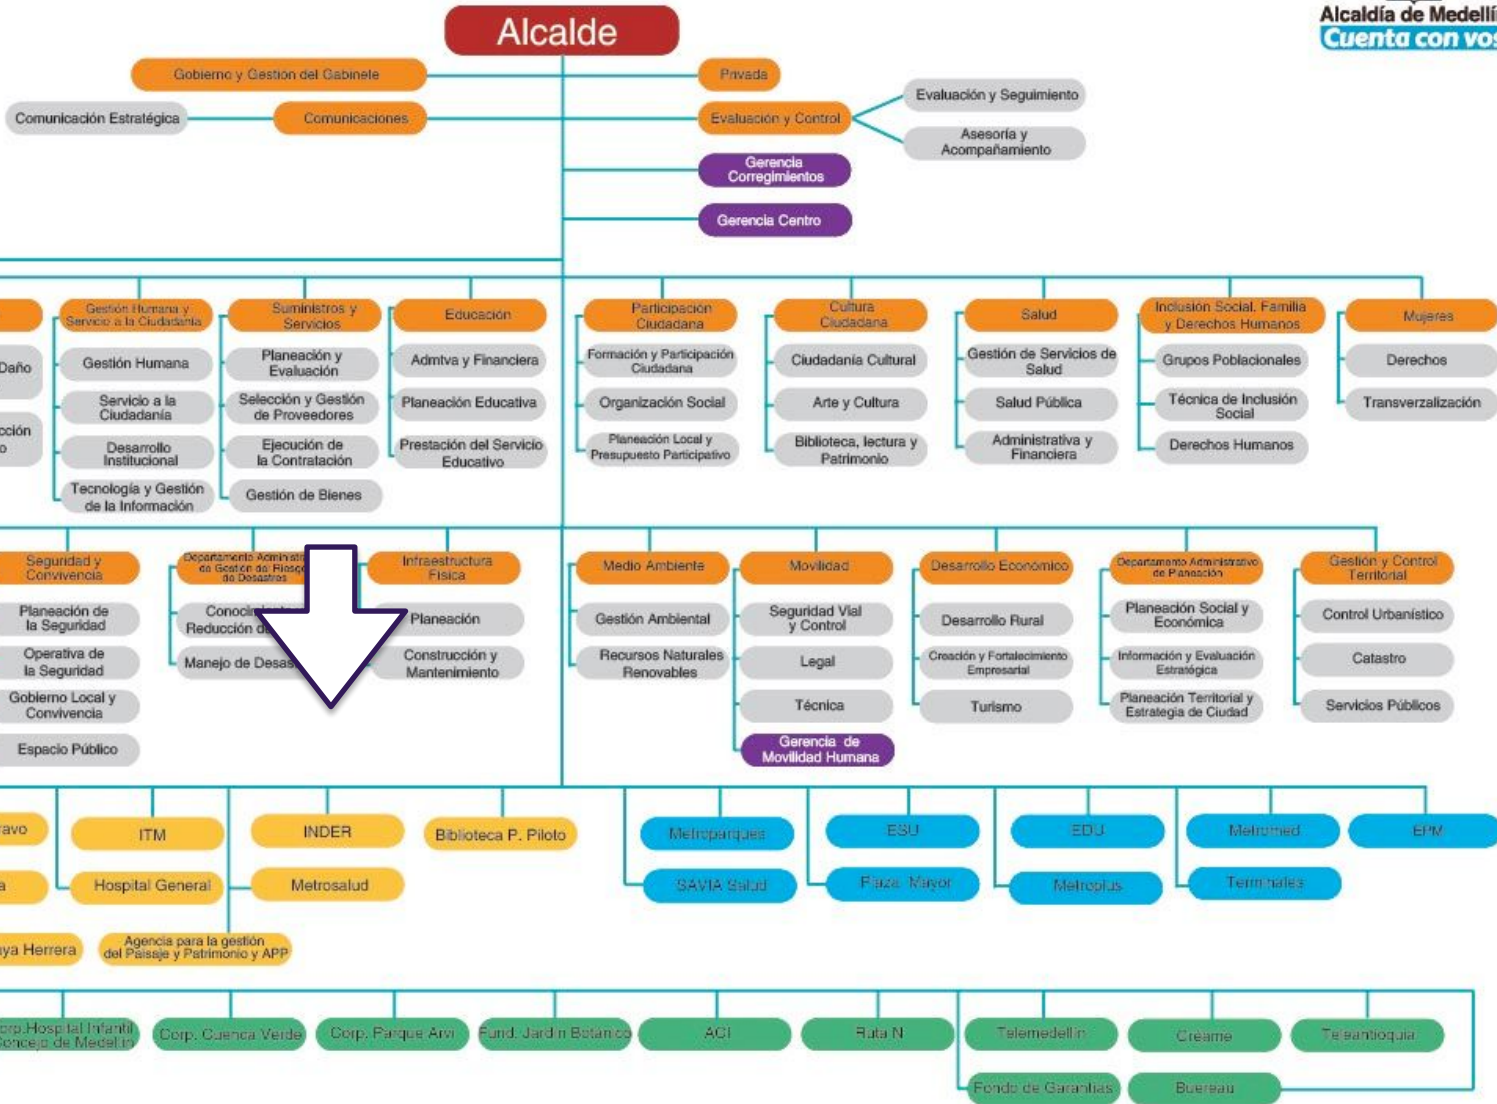

Somehow trying to be flat...

Estructura Administrativa Municipio de Medellín

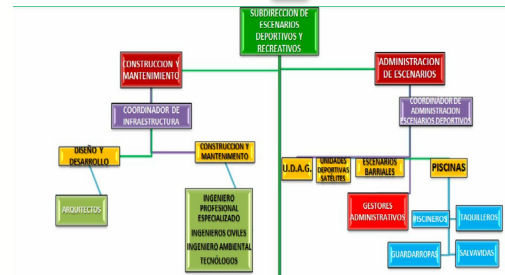

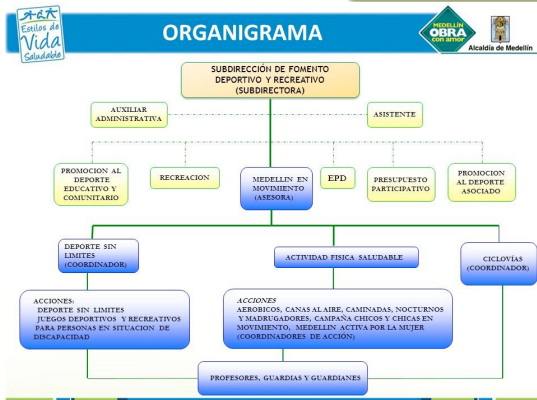

Alcaldía de Medellín
Cuenta con vos

- Secretaría Departamento Administrativo
- Subsecretaría Subdirección
- Ente descentralizado adscrito
- Ente descentralizado vinculado
- Ente descentralizado indirecto
- Gerencia

- Ferrocarril de Ant.
- Parque Explora
- Corp. Hospital Infantil Concepción de Medellín
- Corp. Cuencia Verde

INDER

however... is not here where the magic happens..

THE CHALLENGE:

Design Indicators to measure the (social) impact of the NEW infrastructure (UVAs)

Lower level of recursion

UVAs

The past of Medellin: South-american Games 2010

Distribution of the 20 UVAs in Medellin, around the city giving priority to Districts with vulnerable population –not free of conflict

The Concept UVA: Articulate Living Units

The UVAs are a new urban typology designed to be hubs and open spaces where dynamic of the local communities can be expressed.

The UVAs are (top-end) multipurpose scenarios for sport and cultural expression.

The UVAs are enabling spaces for the development of citizenship and social cohesion and entrepreneurship

Are the tangible expression of an innovative management model with foundations on the development of social cohesion and the respect and value of life.

Each UVA is a different experience - from the definition of the concept, design, community involvement, appropriation and delivery of the portfolio of activities.

Building the UVA community

Imaginary Workshop

Taller de imaginario
Este es el IMAGINARIO Fecha: 24 de febrero 2013

¿Qué significa para usted este espacio hoy?
 Es un espacio para vivir y trabajar, para jugar, para estar con los amigos, para estar con la comunidad.

¿Qué le recuerda a usted ese lugar?
 Un parque que tengo, pero que está muy lejos de la casa, pero que me gusta mucho, porque puedo estar con mis amigos y jugar.

¿Qué le gustaría que tuviera este espacio?
 Que tenga un parque, un área de juegos, un área para estar con los amigos, un área para estar con la comunidad.

¿Qué nombre le daría a este espacio?
 Jardín de la Comunidad

Imaginarios: Tania López y Tania López

UVAs - Governance and cybernetic view

Result of co-evolution and co-creation (in their design and construction dialog/narratives)

UVAs are an organic response to cope with variety (both at local and higher levels of recursion - different offer of services/facilities through community focused design

Self-Organising units (but not entirely)

Self-governing units (but not totally)

Autonomous (but not completely)

.. and yet, they are happy, and they are a GOOD ORGANISATION - the cat catch the mice!

Emerging questions:

- Can the 2 models coexist in harmony? ... is that what we are observing here? - is the evidence of a natural transition taking place?

(... so far “we - they - don't care about the colour of the cat as long as it catch the mice!”)

- Could it be valid to affirm that different organisational models and paradigms can apply - without conflict - at different levels of recursion - echelons? (e.g. traditional structures at the top and non-linear and adaptive at the bottom)

If so... which would be the implications? (possible link with complex and complicated)

- Can under these circumstances the bottom-up dynamic change the governance dynamic and the forms at the higher echelons/recursions levels?

... if so... what should be the nature of a cybernetic intervention (REMEMBER: USERS JUST CAN SEE AND UNDERSTAND THE OMOTE FORM!!)

- What should be the URA form of the intervention to affect the higher recursions/echelons from strengthening the non-linear dynamics at the bottom ?
