The aim of the Leeds Beckett Repository is to provide open access to our research, as required by funder policies and permitted by publishers and copyright law.

The Leeds Beckett repository holds a wide range of publications, each of which has been checked for copyright and the relevant embargo period has been applied by the Research Services team.

We operate on a standard take-down policy. If you are the author or publisher of an output and you would like it removed from the repository, please contact us and we will investigate on a case-by-case basis.

Each thesis in the repository has been cleared where necessary by the author for third party copyright. If you would like a thesis to be removed from the repository or believe there is an issue with copyright, please contact us on openaccess@leedsbeckett.ac.uk and we will investigate on a case-by-case basis.

Encouraged to think about reach & impact of research
I work in Ophthalmology & am carrying out some research into patient's experiences of IVTA treatments (NHS)
As a frequenters of the F Club and a member of a band that formed through going there (Expelaires) I would love to read people's reminiscences....
I am carrying out a review of local weight management services, including The Shine Programme, for Plymouth City Council, Public Health. This paper would provide evidence towards a business case.
I am a defensive tactics and fire arms instructor at the Dutch Police and currently studying psychology.
Encouraged to think about how we search
Measuring thermal performance in steady-state conditions at each stage of a full system.

Database: Leeds Beckett Repository.

The methodology used for measuring the thermal performance of fabric retrofit systems which were applied to a solid wall.
