The aim of the Leeds Beckett Repository is to provide open access to our research, as required by funder policies and permitted by publishers and copyright law.

The Leeds Beckett repository holds a wide range of publications, each of which has been checked for copyright and the relevant embargo period has been applied by the Research Services team.

We operate on a standard take-down policy. If you are the author or publisher of an output and you would like it removed from the repository, please [contact us](#) and we will investigate on a case-by-case basis.

Each thesis in the repository has been cleared where necessary by the author for third party copyright. If you would like a thesis to be removed from the repository or believe there is an issue with copyright, please contact us on openaccess@leedsbeckett.ac.uk and we will investigate on a case-by-case basis.

An aerial night photograph of a city, likely London, showing a dense grid of streets and buildings illuminated with warm yellow and orange lights. A dark river, possibly the River Thames, winds through the center of the city. The overall scene is a vibrant, high-angle view of urban life at night.

A dense, close-up background of various citrus fruits, including lemons and limes, in shades of green and yellow. The fruits are piled together, creating a textured and vibrant visual. A semi-transparent white rectangular box is overlaid in the center, containing the text.

How has this changed our
practice?

A dense, close-up photograph of numerous lemons and limes. The fruits are in various stages of ripeness, ranging from bright green to a pale yellow. They are packed together, filling the entire frame. A semi-transparent white rectangular box is centered over the image, containing the text "Encouraged to deposit beyond REF" in a bold, black, sans-serif font.
