The aim of the Leeds Beckett Repository is to provide open access to our research, as required by funder policies and permitted by publishers and copyright law.

The Leeds Beckett repository holds a wide range of publications, each of which has been checked for copyright and the relevant embargo period has been applied by the Research Services team.

We operate on a standard take-down policy. If you are the author or publisher of an output and you would like it removed from the repository, please [contact us](#) and we will investigate on a case-by-case basis.

Each thesis in the repository has been cleared where necessary by the author for third party copyright. If you would like a thesis to be removed from the repository or believe there is an issue with copyright, please contact us on openaccess@leedsbeckett.ac.uk and we will investigate on a case-by-case basis.

Implementation

Who and what will be affected?

- Who: Key stakeholders
- What: Reading List and Acquisitions processes

Who?

Key Stakeholders

- Students
- **Academics/Course teams**

Who?

Online Shopping Approach

- Familiarity
- Contextualisation
- Make use of the technology available

What?

Reading List and Acquisitions Processes

- Talis Orders Workshop Project

Talis Orders Workshop Project

Project Roadmap

1. Map out current processes
2. Identify areas of improvement
3. Identify new technology
4. Create the workflow
5. Review

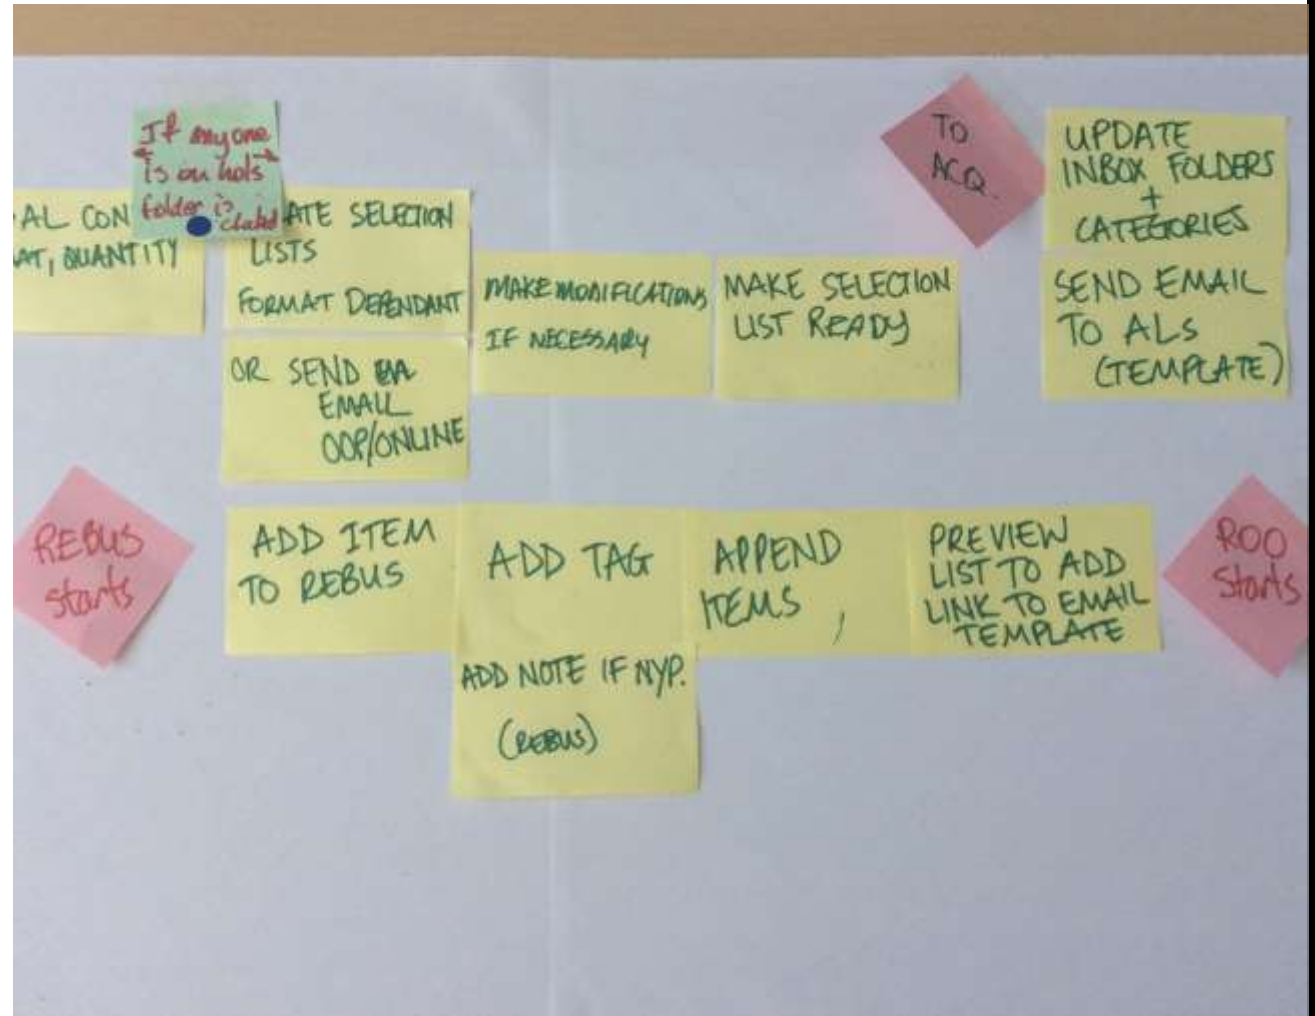

Talis Orders Workshop Project

Map Current Processes

Process mapping exercise with the objective:

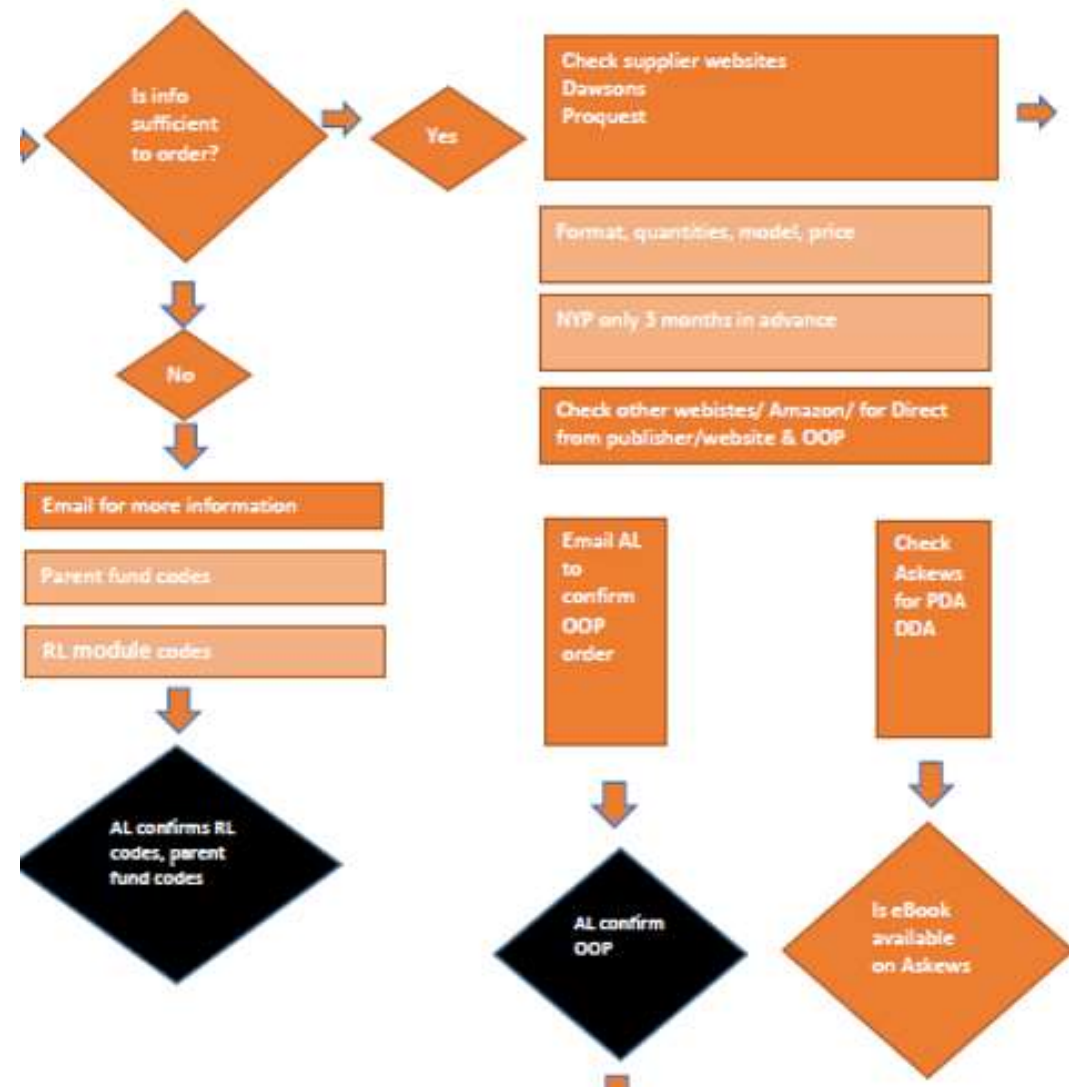

To identify **key elements** of the **current** collections and acquisitions ordering processes for **reading list items**.

Talis Orders Workshop Project

Areas of Improvement

- Lack of module information
- Duplication of work
- Long decision-making time
- Needless processes

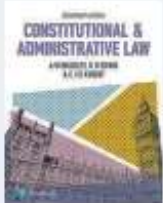

Talis Orders Workshop Project

New Technology

- Supplier APIs & enhanced integration
- Student numbers attached to Reading Lists
- Reviews = broad overview of stock

Talis Orders Workshop Project

Create the Workflow

- Simple was best
- Order directly via reading lists
- Student numbers directly from Banner
- Use a purchasing ratio
- Streamline OOP, PDA/DDA
- Incorporate Digitisation into the process

What happens to your module reading list?

Results of implementation

Results

Positives

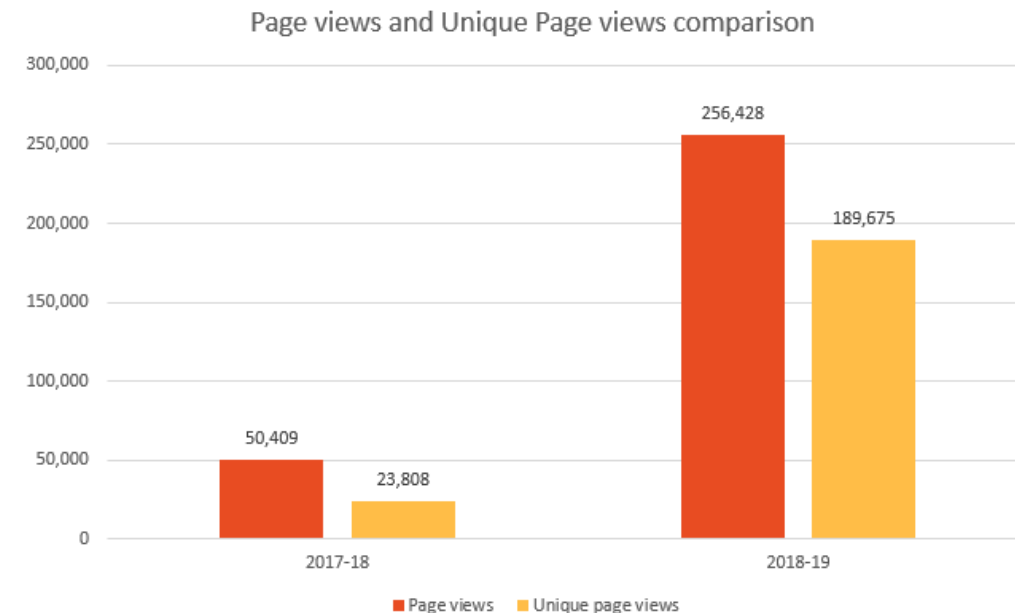

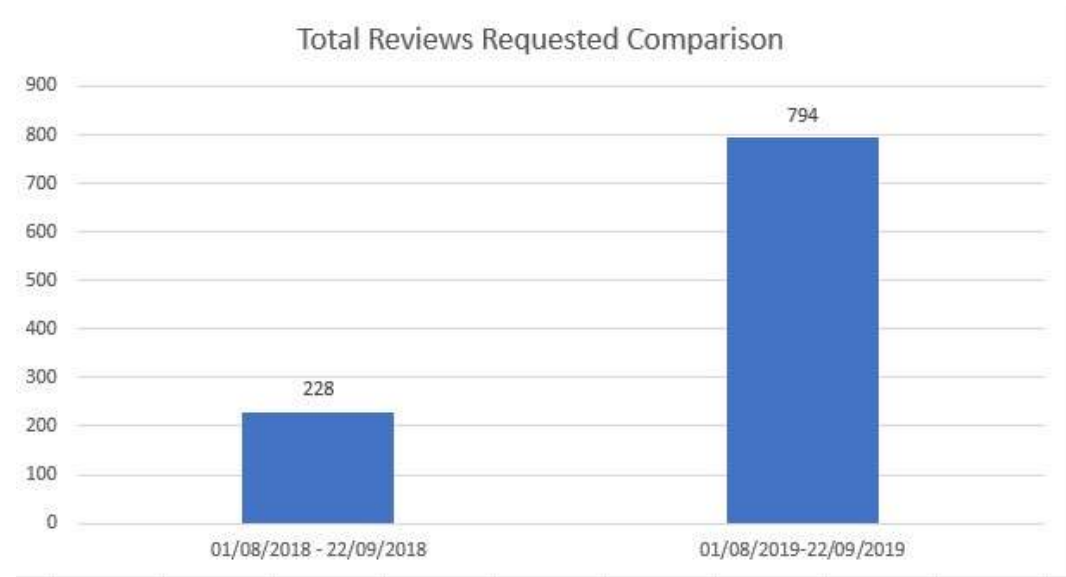

- Knowledge sharing
- Staff felt more empowered
- Staff impact on the quality of the lists
- Staff were able to concentrate on teaching

Results

Positives

- A more streamlined process
- Ordering via RLMS was seen as a benefit (for engagement)
- No items on the high demand report during the first term
- Increased engagement by both students and staff overall

Results

Some issues...

- Increased engagement needs increased support
- Managing staff and student expectations
- Technical issues - how the different systems work together

Looking forward

- Include Alternative Formats within workflow (improve accessibility)
- Measure possible impact on NSS
- Working more closely with other academic support teams across university
- Investigate the use of APIs
- Work with academic colleagues and the Student Union to diversify the curriculum
